Earlham College assists students with disabilities by providing reasonable accommodations. Each student with a disability who requests such accommodations **must provide information and recent documentation** (generally within the past three years) concerning his/her specific condition. Recency varies by disability; please refer to our Web site below for details.

We recognize we are most effective when disclosure of a disability is made prior to a student's arrival on campus. Early disclosure expedites the College's review process, and it usually allows students to begin receiving reasonable accommodations without delay. If you are a student with a disability, please help us serve you by providing, in a timely manner, the information requested below.

Nature of Disability

Please complete the following items.

Attach disability documentation from an appropriate professional that includes information about your diagnosis and your diagnostic evaluation. The documentation should include information about reasonable accommodations and should be sent to the address listed at the bottom of this form. Please be aware that an IEP from your high school is usually not considered comprehensive documentation. Please refer to our Web site below for documentation guidelines and forms.
