

Thank you for participating in the Merged Information Services Organizations (MISO) Survey which explores how students, faculty, and staff use and evaluate the services of library and computing organizations.

The MISO Survey will provide information to the leadership at Earlham College to better understand the use of both library and information technology services. Results from the study will be compared with responses from other colleges and universities to improve our services.

Your responses are confidential and will be used only in the aggregate or, if you give specific comments, anonymously. Most respondents complete the survey in approximately 15 minutes. The Web survey process is being administered through Bryn Mawr College. If you have difficulty completing the survey, please contact the administrator at survey@brynmawr.edu.

If you have any other questions or concerns, please contact Thomas Kirk at kirkto@earlham.edu.

Thank you for your participation.
